THE REGULAR ARMY

The Annual Report of the Secretary of War, William H. Taft, Made Public.

THE STRENGTH OF THE REGULARS.

On October 15, 1904, the Last Report From the Departments, Was 3,744 Officers and 56,439 Men.

Heavy Calls For Details of Officers For Various Purposes Reduced the Number Below the Point of Proper Efficiency.

Washington, Nov. 29.—The annual report of Secretary of War Taft was made public Monday. The following are extracts:

On the 7th of December, 1903, the date of the last annual report, the army of the United States, according to the latest reports which had been received from the military departments (October 15, 1903), consisted of 3,681 officers and 55,500 enlisted men; a total of 59,181. In addition there were in the service 2,807 men of the hospital corps, excluded by the act of March 1, 1887, from classification as part of the enlisted force of the army. There were also in the service 26 officers and 520 men of the Porto Rico regiment, and 99 officers and 4,805 enlisted Philippine scouts.

At the date of the last reports received from the military departments (October 15, 1904), the actual strength of the regular army was 3,744 officers and 56,439 enlisted men.

Army Officers Needed.

The heavy calls upon the line of the army for details of officers to the general staff, to military schools, and to other general military purposes of a useful kind, reduce the number of officers available for service with troops below the point of proper efficiency. It would be wise, therefore, for congress to make provision for additional officers of the line. Provision can well be made by an amendment of the present law by which the detail of line officers under the rank of lieutenant-colonel to the general staff shall be declared to create vacancies in the line. This will have the effect of adding about 25 officers to actual service with troops where they are now very badly needed.

During the past year the troops have been principally engaged in the regular routine duties in garrisons, and they have participated in practice marches, encampments and maneuvers. They have not been in action, except for a few encounters with the savage Moros in the Philippines, rendered necessary by their defiance of the law in Mindanao and Jolo. In one of these actions a detachment of infantry was ambushed, resulting in the loss of two officers and 13 enlisted men out of 39 men engaged.

The Military Posts.

In the establishment and development of military posts in the United States, to meet the requirements of our enlarged army, there has been expended during the past year a total sum of \$10,037,924.88 for construction and repair of barracks, quarters, hospitals, storehouses and miscellaneous buildings, and for improvements on military reservations.

Our present system of seacoast defenses based upon the report made by the Endicott board, January 16, 1886, is now considerably more than half completed. Projects for the defense of 31 localities in the United States have been prepared and approved, and actual construction under these approved projects has so far advanced that 25 of the principal harbors now have mounted in fortifications and ready for use heavy guns and mortars sufficient to furnish an effective defense against any possible naval attack.

Since the inauguration of the present system of coast defense the total appropriations made by congress for carrying out the work aggregate, in round numbers, \$110,000,000, and it is estimated that it will take \$65,000,000 more to complete the work.

The Coast Artillery.

The chief of artillery strongly urges that the strength of the coast artillery be increased at least one-half, and that the pay of certain enlisted men, non-commissioned officers, and privates who have qualified as gunners, be raised. At present it is difficult to keep companies recruited to their full strength. It takes nearly three years to train these men to a good degree of proficiency, at the expiration of which time the government loses them, as very few re-enlist.

It is gratifying to be able to report that very satisfactory progress has been made toward bringing the organized militia of the several states and territories to a condition equal to that

of the regular army, respecting armament and equipment. Officers of both services have cheerfully and effectively co-operated in meeting the requirements of the new law, both in letter and in spirit, and their combined efforts to bring the militia up to the high standard of the army in discipline and instruction are meeting with excellent results.

WITH A COUPLING PIN.

New York Woman Cruelly Murdered and Robbed.

New York, Nov. 29.—With her head crushed, the body of Mrs. Margaret Keeler was found in her apartment on the upper east side of New York late Monday night. Nearby was an inch coupling pin with which she had evidently been murdered, one end of it was covered with blood. The Keeler family consisted of husband and two children, James, aged 12, and Mabel, 9 years old. The children say they left home as usual Monday morning for school. Their father had gone to work earlier, and when they started out their mother was in good spirits.

Investigation by the police shows that the woman was murdered in the kitchen and had made a desperate resistance. The murderer then dragged her body into the bedroom and threw it upon the bed.

Missing from the flat was jewelry worth \$400 and also \$200 in cash. The police learned Monday night that a man had called on Mrs. Keeler several times and had been given something to eat. The fact that the table was set when the murder was done at once seemed to link the visitor of former occasions with the crime. A description of the man was secured.

ALMOST A TRAGEDY IN COURT.

Preacher Attempted to Shoot a Judge of the Superior Court.

San Francisco, Nov. 29.—Rev. Isaac Selby, of Australia, plaintiff in a divorce suit, shot at Superior Judge Hebbard Monday while the latter was on the bench. The bullet came within an inch of the judge's head and lodged in the back of his chair. Selby was at once removed to the city prison and charged with attempt to commit murder.

Selby recently was sued for divorce. He conducted his own defense, but was unsuccessful, a decree against him being granted. Judge Hebbard, who issued the decree, was trying a case Monday when Selby arose from a seat in the courtroom and fired point blank at the judge, who, hearing the bullet whistle past his ear, rushed from the bench and grappled with his assailant, preventing him from firing another shot.

Before being taken to his cell Selby said: "I shot at Judge Hebbard because that seems the only way for a man to get justice in this country. My only regret is that I seem to have bungled matters considerably. My intention was to kill him, but I was a trifle nervous."

CIRCUS MEN CONSULT.

Window Lithographs and Free Passes May Be a Thing of the Past.

New York, Nov. 29.—Window lithographs and free passes to the circus will soon be a thing of the past if the ideas of the proprietors of the James A. Bailey and the Ringling Bros. shows, two of the largest traveling companies in this country, are carried out. These two interests, it is announced, have entered into an agreement, which they believe will be of great benefit and other showmen have been invited to give them aid in putting the plan into use. The agreement entered into includes a mutual understanding as to routes and general operations and a proposal to abolish the free ticket. If this is put into effect the window lithograph will become a thing of the past.

AT METER HILL.

Reported That a Japanese Attack Is Succeeding.

Tokio, Nov. 29.—It is reported that the attack against 203 Meter hill by Japanese light artillery is succeeding. It is estimated that 90 per cent. of the work of the complete occupation of Port Arthur will be finished with this height in the possession of the Japanese. No part of the harbor of Port Arthur will then be concealed from the Japanese.

Portland, Ore., Nov. 29.—The official canvas of the vote cast at the recent presidential election shows: Roosevelt, 60,455; Parker, 17,521; Swallow, 3,806; Debs, 7,619; Watson, 755. Roosevelt's plurality, 42,934.

THREE DAYS FIGHT.

Though the Japanese Were Repulsed at Tsinkhetchen the Battle Still Continues.

SEIGE GUNS PLACED IN POSITION.

In the Midst of the Engagement a Blinding Snow Storm Caused a Suspension of Hostilities.

When Weather Cleared in the Afternoon a Turning Movement Against the Right Flank of the Russians Was Observed.

With the Russian Forces at Shengking, Nov. 29.—The attack by the Japanese upon Gen. Rennenkampf's first position on November 24 resulted in three days' fighting at Tsinkhetchen, near Da Pass. Though the Japanese have been repulsed, the fighting still continues. The Japanese have succeeded in placing several big siege guns in position, with which they will be able to seriously hamper the Russians.

The latest estimate of the disposition of the Japanese forces is as follows: One brigade of infantry and five regiments of cavalry, with a second line of one brigade between Bandioza and the Run river; two divisions of infantry between Bandioza and Linshupu; one division between Linshupu and Liadiaouza; one division between Liadiaouza and Chinsandiza; one division between Chinsandiza and Kosangau; one brigade between Kosangau and Sunmuga, with a second line consisting of one brigade and two divisions; one division at Repupuz; one brigade occupying the country southwest of Bepupuz as far as Chingizi, with one brigade of infantry and one of cavalry in the second line. Behind the main army are one brigade of infantry stationed at Liao Yang, one at Yental and one at Tsinkhetchen.

Checked By Artillery Fire.

St. Petersburg, Nov. 29.—Gen. Sakharoff Monday telegraphs as follows: "The Japanese attack on Tsinkhetchen was checked by our artillery fire, and the fighting ceased at 6 o'clock in the evening of November 27. At no point did the enemy advance nearer than within 600 paces of our positions. In the midst of the battle a blinding snow storm caused a suspension of hostilities, and when the weather cleared at 3 o'clock in the afternoon a turning movement against our right flank was observed."

Japs to Take the Offensive.

St. Petersburg, Nov. 29.—Gen. Kuropatkin reports that there has been active skirmishing on the left flank for three days. The opinion is now expressed by the general staff that the Japanese intend taking the offensive as they can not afford to wait till the Russians are further reinforced. It is held that the fighting to the eastward is doubtless with the purpose of feeling out the Russian positions preparatory to an advance in that direction; but as there are about 7,000 Russian troops southwest of Sintsintin, any Japanese move from this quarter would entail serious fighting. At the same time correspondents at the front continue to scout the idea of serious fighting being imminent.

THE KENTUCKY DROUGHT.

It is Beginning to Decrease the Milk Supply in Louisville.

Louisville, Ky., Nov. 29.—The drought in Kentucky is beginning to decrease the milk supply in Louisville. Several dairies have put their customers on a half allowance, and confectioners are unable to secure enough of the fluid for use in making certain kinds of candies. A number of distilleries have suspended operations until rain falls. In a number of small places the citizens are buying water, and farmers are compelled in many instances to drive stock several miles to water.

For more than a month the Southern railway has been hauling water to its Shelbyville tanks, and for the past three weeks it has been hauling ten car loads of water a day. Freight engines running between Lawrenceburg and Lexington and Lawrenceburg and Burgin, are carrying double water tanks. All the freight engines in the Chesapeake & Ohio railroad have been carrying two tanks for several weeks.

The alarm was quickly given and the man was almost dead when found.

FISHING VESSELS.

Ten American Boats Were Seized by the Canadian Protective Cruiser Curlew.

WERE FINED FOR ILLEGAL FISHING

Were Also Charged With Having Illegally Caught Fish in Their Possession and Fishing on Sunday.

The Fines Will Be Paid and the Entire Matter Disposed of Without Involving Any International Question.

Eastport, Me., Nov. 29.—Ten American fishing craft, including eight sailing vessels and two steamboats, have been seized by the Canadian fisheries protective cruiser Curlew and fined for illegal fishing in the Canadian waters of a tributary of Passamaquoddy bay, near St. George, N. B. The fishing craft were seized near St. George Sunday night, though an announcement at this procedure was not made until Monday. Three specific charges were preferred against the vessels: That they had fished on Sunday; that they had illegally caught fish in their possession and that they had seined illegally in Canadian waters. For the first two offenses each boat was fined \$100 and for the last \$200. In addition to this all seines and fish were confiscated.

It is understood that the fines will be paid and that the entire matter will be disposed of without involving any international question. The aggregate value of the craft is placed at about \$20,000. The seizure is the most extensive that has been made by a Canadian cruiser for many years.

Will Not Be Made An Issue.

Washington, Nov. 29.—Taking their cue from the statements contained in the Eastport dispatch, state department officials are not expecting the seizure of the American fishing vessels to be made an issue between the governments of Canada and the United States. So far nothing has been heard about the matter except the unofficial information contained in the press dispatch, which indicates an amicable disposition of the matter. In the present instance the question of extra territoriality appears not to have been raised and the vessels were not confiscated which has happened in the case of seizures heretofore made, either of these features usually being sufficient to make the settlement of the controversy a matter of diplomatic negotiations.

THE PORTLAND EXPOSITION.

There Is Heavy Demands of Foreign Countries For Space.

Portland, Ore., Nov. 29.—It has been decided to erect another manufacturers and varied industries building at the 1905 centennial for Pacific coast exhibitions. The additional structure will provide approximately 70,000 feet of floor space. Applications are on file for about 100,000 square feet, which at present can not be housed, but the directorate of the exposition reassures coast manufacturers they will be provided for. This will make 11 exhibition palaces. Owing to the demands of foreign countries for space and the Oriental and European exhibits will be in separate structures, the present liberal arts building being altered for the purpose.

WEATHER FORECAST.

Fair and colder to-night and Wednesday.

They had a Democratic primary in Harrison County the other day. Judging from newspaper accounts, it must have been a corker, alongside of which our own little affair of last Saturday was only a side show compared with the big three-ring attraction over yonder. The Cynthia Democrat handles the matter without gloves in its last issue, and Brother Allen's editorial contains so much sound argument that it will bear reprinting. We give it in full:

The methods of electioneering pursued in the contest for Democratic nominations in this county, ending with the primary election last Saturday, are the subject of discussion among citizens in every portion of the county and with almost unanimous voice they are vigorously condemned. The primary is designated as the most corrupt and filthy that has been held in Harrison. Whether this condemnation is wholly deserved or not we cannot say. The memory of men is short-lived in affairs of such nature. It is possible that each succeeding election where certain voters are controlled by undue influences seems the worst, and this year's primary may appear unusually bad through absence of an immediate standard for comparison. Still, in all conscience, it was disgraceful enough.

Candidates themselves are not to be so severely censured as is the state of morals—a corrupt and vicious public sentiment that condones, forgets or excuses disreputable practices through anxiety for the success of party favorites.

The Democrat has often questioned the sincerity and honesty of men who seem to hold that politics is but a legitimate license for the buying and selling of votes, for forgery and theft, for unbridled debauchery, and who at the same time believe that actions of a similar nature in business or private life are to be condemned, estopped and punished as the law decrees. Honesty is honesty wherever it is met. A deplorable condition confronts a community when officials are to be chosen to execute the law by electors who have been bought or made drunk in direct violation of law, by these self-same officials.

Now, we would not censure any man or set of men above others. More than probable it is that the candidates would gladly have escaped the fearful ordeal to which they were subjected. They were mercilessly "bled" where a drop of "blood" remained, and in self-defense on some occasions they were forced to "hide out" to escape their persecutors.

Each Saturday, each court day saw the streets crowded with a horde of blood-suckers. For two days before the election a throng paraded the streets of this town openly soliciting money and whisky in exchange for their votes and alleged influence. It was an impartial gang. If one candidate could not be found, another for the same office would do as well. If one was caught and "bled," the process

was immediately repeated on another. On the day of the election, at some polling places, it has been stated, buyers stood at the edge of the ropes and loudly contended in bidding for votes.

A fearful state of affairs. And yet the candidates would have avoided it if they could.

What is the remedy?

An awakened public conscience. The people can stop this thing if they will. The overwhelming mass of citizens are law-loving, law-abiding and honest—in politics as well as in business. They desire an honest and proper administration of public affairs. They want men in office who are best qualified to conduct the affairs of the county. They want the campaigns and elections conducted with honesty and decency.

How can the people effect this?

Discourage early announcements.

Pledge to no man a year in advance of the election.

Support no man who uses whisky or money, or both, as a campaign argument.

Consider the disgrace brought on the county. Discuss the matter with your neighbors and friends. Convince them that by concerted action reforms can be accomplished. Denounce and ostracize the "floater."

And the candidate can protect himself and the community by—

Not announcing early.

Using no money or whiskey.

Cultivating and soliciting the votes and influence of men who stand for clean campaigns.

Discharging the "floater."

Standing for honesty and decency.

Is this only a dream of "practical politicians?"

Perhaps.

Sometimes dreams "come true."

THE WEAVER CASE.

Court of Appeal's Opinion in Reversing the Suit For Damages Against Ex-Policeman Easton.

In reversing the suit of Joseph Weaver versus Bruce Easton, taken up from the Circuit Court, the Appellate Court by Judge Hobson delivered the following opinion:

By Section 3497 of the Kentucky Statutes arrests may be made for drunkenness or disorderly conduct at any time without warrant, and where one in making an arrest acted in the line of his duty and in good faith and upon reasonable grounds he is not liable on his bond.

When one was arrested on a Sunday and placed in jail and kept until Monday morning when a warrant was issued as was the custom under the rules to place persons in jail when arrested on Sunday and hold them until Monday, the jailer was warranted in receiving the prisoner without a mittimus, as the statute authorizes persons arrested to be placed in the county jail until taken before the Police Court.

A. D. Cole was the attorney for appellant and Thomas R. Pfister for appellee.

Earnest, the little son of Mr. James R. Thompson of near Germantown had a narrow escape for his life recently by being attacked by a vicious hog, which tore almost all of his clothing off and badly bruised him up.

Judge Francis T. Hord's term as Circuit Judge having expired, he has formed a law partnership with his brother-in-law, Hon. Francis F. Cox at Columbus, Ind. The Daily Herald says the combination will make a remarkably strong firm as Judge Hord ranks among the leading jurists and lawyers of the State, while Mr. Cox is recognized as an able and eloquent attorney whose practice has placed him at the head of his profession.

Mr. and Mrs. R. G. Wood of Woodburn entertained a number of relatives and friends at dinner on Thanksgiving day. The guests were Mr. and Mrs. W. D. Worthington, the Misses Bessie and Inez Worthington, W. C. Worthington, Cleveland Worthington, Jude L. P. Cord, Mr. and Mrs. James Magee of Mayslick, Mrs. Jane Worthington and Clifton Worthington of Nepton, Mrs. W. L. Chappell, the Misses Viola and Clara Chappell and Master Lawrence Chappell of Paris, Ky., Miss Edna Wallace of Maysville, and Leslie Rammings. The feast was one that would satisfy the most extreme epicurian. The host and hostess were assisted by their daughter, Miss Mary Branan Wood, and Miss Bessie Worthington in dispensing the hospitalities of the day.

Orangeburg.

An oyster supper for the benefit of the Christian Church was given at the residence of Dr. W. H. Hord Thanksgiving evening. The receipts were about \$15.

Mr. Charles Kennan has made 227 gallons of sorghum molasses this fall and after selling a large quantity has lots of "lasses left to last his family all winter.

Oyster soup and other refreshments were served in Marma Collis' storeroom election day. The sum of \$25 was realized. Mrs. Inez Dixon, Mrs. R. Applegate, Mrs. Dr. Hord, Mrs. James Roe and others had charge of the affair.

Mr. Alfred Cooper, the sage of Oak Hill, on being interviewed by a tree buyer one day recently with reference to a sale of his trees remarked with a shake of his head:

"I'd rather see the grey squirrels hopping from twig to twig

Than to sell my grove of oak trees for a price however big!

When I can't lie beneath their shade and overlook the farm

The home place of Alf. Cooper has lost just half its charm."

We are up against the water famine worse this year than ever before. The school house well from which many have been drawing water for domestic purposes has got so low that the trustees were compelled to put a lock and chain on it. Mr. L. M. Collis, our miller, after sinking two wells, has been obliged to resort to an excavation for a supply of water; that is, the excavation is there ready for the water when it comes, and will hold several thousand gallons. Wells and springs are dry and water for drinking purposes has to be carried long distances. As for washing clothes, or faces and hands, anyone presuming to that extent of nonsensical nonsense now would be regarded as having exalted aristocratic aspirations. It has come to pass when water will have to be stored in times of plenty for times of scarcity and the quicker arrangements are made to that effect the better it will be for all parties concerned.

Helena Station.

Most of the corn has been cribbed, the yield and quality good.

Miss Anna Belle Brough came down from Lexington to spend Thanksgiving with her parents, Dr. and Mrs. Brough.

There was much interest taken in the primary election at Helena Saturday. Every man looking for the success of his favorite.

Nearly Six Million Dollars Worth of Carpets

Sold at auction in one week. Our Mr. A. J. Merz was there each morning from 9 o'clock until 5 p. m. It's not surprising that we were the only merchants from Maysville there—in fact we don't suppose that any other merchant knew there was a sale. We bought very heavily—we are going to have a sale—don't know exactly when, because the goods won't arrive for ten days. ONE THING SURE, don't buy a Rug or a Carpet until we start our sale—ALL NEW GOODS direct from the factory. PRICES—well when Merz Bros. say they are cheap, you had better be on the spot.

The marriage of Miss Agnes King and Mr. Joseph Conroy was celebrated the morning of Thanksgiving day at 6:15 o'clock in St. Patrick's Church, Mt. Sterling, Rev. Father DeWageneare officiating.

The engagement is announced of Miss Louise Marshall Coons, formerly of this city but now of New York, to Dr. Eugene Paul Le Fairre Johnstone of Paris, France. The marriage is to take place in December.

Deputy Sheriff W. H. Mackoy the other day arrested a colored youth, giving his name as Harry Garrison, charged with a heinous crime. His victim was a little colored child aged about five years. The parties reside in the west end of the county.

Rev. H. T. Musselman, pastor of the First Baptist Church, tendered his resignation at Sunday morning's service to take effect in February. He resigned in order to take a year's course in college—three months in Louisville and nine months in Chicago.

The many friends of Editor Thomas A. Davis of the Ledger will regret to learn that he was a very sick man yesterday and in the afternoon his condition was quite alarming. His physician reports him some better this morning, however, and the BULLETIN hopes soon to see Mr. Davis himself again.

Six masked men ramsacked Squire Rice's home near Lewisburg Friday night, but secured no plunder. No doubt they were after money they thought Mr. Rice would have in the house for use in his campaign. The Squire was not home at the time, but Mrs. Rice thinks she recognized one of the men by the clothing he wore.

The Metropolitan Stock Company playing a three-night's engagement at the opera house is good—you get all that anybody ought expect at such prices. There is no need to say more, but we will add that the show is especially strong on moving pictures and illustrated songs, of which the people never seem to tire. The packed house should be repeated to-night. The play is "Friends," a comedy drama.

A crowd of youngsters built a fire in Glycerine Hollow yesterday afternoon to smoke a rabbit out of a hollow log. The hillside is covered with dry leaves to a depth of several inches and it was no time until the flames had spread uncomfortably close to the Limestone Distillery. A big force started to fight the fire about 4:30 this morning and at 9 o'clock had gotten it under control, but it is still burning at this writing.

The Home Store!

"It's not going to swell our heads," but our orders from far distances we almost daily receive and the nice compliments from the recipients on the goods we send them does make us feel a bit chesty. Notwithstanding the mild weather so far our November business will be one of the biggest in the history of our house. There is nothing remarkable in that, however. People have long since learned to seek the best for their money and here is where they find it.

Our Young Men's Suits from \$7.50 to \$12.50,
Our Men's Suits from \$8.50 to \$12.50,
Our Overcoats from \$5 to \$12.50

are simply better for the price than you can find in any other house in the State. It costs nothing to look. Do that and we'll soon convince you that we make no idle boasts.

our Boys' and Men's Shoes like our Clothing are the productions of the best shoe makers in the world,—Hanan, Douglas and Walkover. Did our Shoes not give the greatest satisfaction the rapid growing trade on them would be considered marvelous, but folks soon get on to "good" things and it is no wonder they come here for shoes.

Our Corduroy Suits and Pants are in great demand. Come in while we have your size.

ECONOMY

Is invariably the result when in buying eatables you buy the best. Never buy anything to eat when not good because it looks cheap. It is dear at any price. In these days of adulteration and low priced foods it becomes the duty of every one to scan closely what he buys and reject everything of a suspicious character. In order to be on the safe side always buy of the experienced dealer who knows the good from the bad and who will not handle impure and poisonous goods. I am now opening an unusually large and most attractive stock of high grade goods for the fall and winter trade.

New Crop New Orleans Molasses

direct from the plantation to the consumer. No better made. FINEST SORGHUM ever sold in Maysville. The only trouble is in getting as much of it as I can sell. My stock of CANNED GOODS is immense—bought direct from the packers. When prices were very much lower than they are now I bought heavily of Green Coffee and am in position to name very attractive prices on either green or roasted goods. I get in each week a supply of freshly roasted goods from the roasting house in New York where I have my Coffee for roasting stored, and can sell you better Coffee at 15, 20 and 25 cents than others sell at 20, 25 and 30 cents. My stock of Teas—green and black is always full and complete.

PERFECTION FLOUR

is the finest flour sold in Maysville. In fact it has no superior anywhere. My stock of Apples, Oranges, Lemons, Bananas, Figs, Citron, Orange and Lemon Peel, Dates, Raisins, Atmore's Mince Meat and Plum Pudding, Prunes, Buckwheat Flour, Maple Syrup, White Clover Honey, Cereals of all kinds, Hominy, Beans &c. of the very best. Ladenburger's Crab Cider, Baltimore Oysters in bulk and cans, Celery, Cranberries, Poultry and Game, in fact everything good to eat of the very best. Look out for my holiday special and when you come to our city you are specially invited to make my house your headquarters. Remember, I buy all kinds of country produce such as Butter, Eggs, Poultry, Game &c. Will buy one hundred extra cured old Country Hams in weight from ten to fifteen pounds each.

A Card From Dr. Williams.

Editor of the Bulletin: From the frequent references of late to it in the local papers, the case Williams vs. Maysville Telephone Company seems to have aroused a measure of public interest. For the sake of others who, like myself, may have suffered and may hereafter suffer discrimination, I wish to say that your information as to the rights of the subscriber has been somewhat misleading.

In this case which the Court of Appeals deemed of such importance as to direct it "to be reported," the principle for which I contended was firmly established thereby. Namely, to use the exact language of the opinion: "There must not be in the service or the charges any discrimination or partiality," and to enforce it, if necessary, a mandatory injunction must be granted. That, as a law-abiding citizen, I set out to do. I have done—I have obtained a distinct expression from the highest tribunal in the State defining the subscriber's right as well as his remedy. Thus armed and equipped I make no boast of what I shall next do. But if I only suc-

ceed in the enforcing by the "Hello Outfit" a recognition of its amenability to law my service to the public will not have been in vain. Very respectfully, G. M. WILLIAMS.

All Maysville People Have to do is to Follow Their Neighbor's Advice.

Our readers have no excuse for going astray. The way is almost fenced with guide-posts in Maysville. They are on every highway and byway. "He who runs may read." Investigate this example:

Mr. Henry Bertram, boots and shoes, of 225 Market street, says: "The great value of Doan's Kidney Pills are quickly proven. I procured them at J. Jas. Wood & Son's drug store, corner of West Second and Market street. In a very short time I was cured of backache which had troubled me for some time. I gave some to a friend who suffered greatly from kidney ailments and he said the results obtained from their use proved that Doan's Kidney Pills are a preparation which possesses remarkable value."
